PM Control Systems Completes Purchase of Woodward's Australia Operations

Oct. 1st, 2009 -- Woodward and PM Control Systems (PMCS) are pleased to announce the completion of PMCS's purchase of Woodward's Sydney operations. PMCS's wholly-owned subsidiary, **PM Control Systems (Aust) Pty Ltd**, incorporated in New South Wales, will assume Woodward's operations in Australia, New Zealand and the South Pacific Islands as of **October 1, 2009**.

Message from Woodward

PMCS is a long-standing partner of Woodward, and our principal channel partner across southeast Asia. Woodward is confident that PM Controls will continue the fine tradition of Woodward service and quality.

PMCS has extensive experience in the upgrade and retrofit of gas and steam turbine control systems, reciprocating engine system upgrade, governor repair, field service, technical assistance, and training.

The company also has partners throughout the Asia Pacific region, all of whom are able to offer support of Woodward products. PMCS has by far the largest governor repair and service infrastructure outside of the US.

Message from PM Control Systems

PMCS is pleased and excited to embark on this new venture into Australia, New Zealand and the South Pacific Islands. We consider this to be an excellent opportunity and are committed to building on the presence Woodward has established in the region. PMCS will continue to maintain and improve service levels to all customers and channel partners, and we look forward to working with all parties in the near future.

PM Control Systems (Aust) Pty Ltd will operate from the same location at Kingsgrove, Sydney. All existing telephone (fixed and mobile) and facsimile numbers will be maintained as well. All existing Woodward staff will continue with the new business, and can be contacted via their Woodward email addresses until otherwise advised.

About Woodward

Woodward is an independent designer, manufacturer, and service provider of energy control and optimization solutions used in global infrastructure equipment. We serve the aerospace, power generation and distribution, and transportation markets. Our systems and components optimize the performance of commercial aircraft; military aircraft, ground vehicles and other equipment; gas and steam turbines; wind turbines; reciprocating engines; and electrical power systems. The company's innovative fluid energy, combustion control, electrical energy, and motion control systems help customers offer cleaner, more reliable and more cost-effective equipment. Our customers include leading original equipment manufacturers and end users of their products. Woodward is headquartered in Fort Collins, Colo., USA. Visit our website at www.woodward.com.

About PM Control Systems

PM Control Systems is a one-stop engineering solutions provider for energy controls and power management systems. Located in Singapore, Sydney (Australia) and Jakarta (Indonesia), we serve the marine, offshore, petrochemical, power generation and industrial markets in the Australasian and South-East Asian region. We also maintain a network of channel partners and sub-distributors in Australia, Indonesia, Malaysia, New Zealand, Pakistan, Philippines, Taiwan, Thailand and Vietnam. Our customers range from energy, mining and transport companies to OEMs and manufacturing facilities. The company is ISO 9001 certified by Lloyds Register Quality Assurance.

PM Control Systems is a Woodward Business Partner for South-East Asia and holds the following appointments:

- Full Service Distributor for Industrial Controls
- Full Service Distributor for Power Management Controls
- AISF (Authorized Independent Service Facility)
- RER (Recognized Engine Retrofitter)
- RTR (Recognized Turbine Retrofitter)
- Authorized Training Facility
